5 GENDER
EQUALITY

By Abbie Coughlan, Caoimhe Garry ,Clodagh Whelan
and Kayla Cahill .

Description

Gender equality is simply men being treated the same as women and women being treated the same as men. In the past men were forced to fight and women were forced to stay home, clean, cook & mind children. Nowadays society has a lot more respect for men and women's rights however there are still significant problems with gender equality. The main problems are mostly uneven access to education and men have always had more domination than women but we are working towards a more equal earth.

Countries doing well

Fortunately there are more countries in the world doing well with gender equality than bad. Here is a list of the countries doing well.

Countries Not Doing So well

Unfortunately some countries are still not doing so well in gender equality. The good thing is that there are more countries doing well than not doing well. Here are some of the countries that aren't doing so well:

- ~ Democratic Republic of Congo 
- ~ Syria 
- ~ Sierra Leone 
- ~ Pakistan 
- ~ Yemen 
- ~ Chad 
- ~ Sudan 
- ~ Afghanistan 
- ~ Kenya 

Gender Equality facts

Rwanda, Bahrain and Oman are some of the best countries for gender equality and Sudan is one of the worst countries for gender equality . Gender equality has always been a problem in society. Protests are going on in different parts of the world to try improve gender equality

On average ,women have only 75% of rights that men have .
