

Responsible Consumption and Production

12 RESPONSIBLE
CONSUMPTION
AND PRODUCTION

By Shauna Hennessy, Niamh Sheil, Brogan Noonan, Sonny Healion and Conor Brereton

Description

Our planet has provided us with vast amount of sustainable resources. We have not used them responsibly causing our planet to consume more than it can provide. We must learn how to produce sustainable ways that will try reverse the harm that we done to the planet.

Countries doing well in Responsible Consumption and Production

Denmark, Sweden, the Netherlands and Finland are top of the rankings

Ireland ranking in 8th place. Denmark is the world's most eco-friendly country, for hundreds of years Denmark was based on agriculture and fishing, Danish people still feel close to the land and water around them.

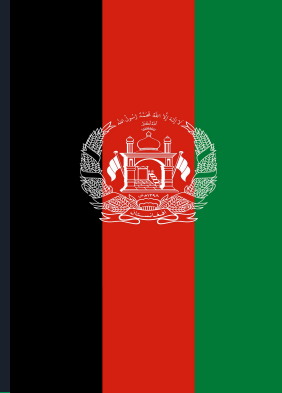

Countries that need to improve

Countries that need to improve the most are Chad, Somalia, Syria, South Sudan, Nigeria and Afghanistan.

Chad needs to improve the most has it is the most vulnerable country.

Extra Information

Here are some ways to help improve this project:

1. Shop, eat and drink locally.
